WORK EXPERIENCE

Elevate HQ   **Remote**
Software Engineer   *April 2022 - Present*

- Crafting intuitive, responsive web applications with React, CSS, and HTML for optimal user experience
- Integrating APIs and services with React components to provide seamless data flow and enhance application functionality, resulting in lighter application size and faster rendering
- Writing clean, efficient, and maintainable code using Git and Github.
- Efficiently managing application state using Redux Toolkit and reducers for optimized data management and flow
- Collaborating with the design team to ensure the implementation of consistent UI/UX design.
- Working closely with the QA team to ensure high-quality code by writing unit tests using Jest.
- Deploying production-ready code efficiently with AWS and Docker for seamless application deployment and scalability.
- Communicating effectively with the Product, Design, and Customer Success teams to enhance product development and delivery

DMI Housing Finance   **New Delhi**
Software Engineer   *August 20 - March 22'*

- Created production-grade Spring based Applications using *SpringBoot*. Engineered *REST* APIs that are easier to maintain and debug during its lifecycle.
- Tested developed code using *Postman* and providing solutions which reduced support calls from 27% to 13% in a span of 3 months.
- Deployment of server ready code using *Putty* and *Win-Scp* to *AWS Server*
- Designed and optimized database schemas and queries in MySQL, resulting in improved database performance and reduced query execution time
- Conducted thorough Automated testing using Selenium and to ensure data recovery in case of failures
- Contributed to Agile ceremonies such as sprint planning, stand-ups, and retrospectives

PROJECTS

Coconut - React web application tailored for the fashion industry
Youthhub - Web application built with React, dedicated to streaming high-quality video content
GrubGo - Feature-rich React web application designed for seamless food ordering and delivery
Crypto Portfolio - Backend APIs built on Express

LEADERSHIP EXPERIENCE

Cognitio Education   **Dhanbad**
Student Reachout Ambassador   *December 2016 - January 2017'*

- Generated awareness in school administration to encourage their students to take part in this personality assessment program.
- Conducted Seminars in 8 school campuses involving participation of 1500+ students.
- Increased student engagement by 33% YOY with the help of these sessions

EDUCATION

Harcourt Butler Technical University   **Kanpur**
B Tech in Mechanical Engineering (GPA 6.5)   *Graduation Date: August 2020'*

- Head of Public Affairs, Member of Harcourtians Coding Club

SKILLS

React, CSS 3, HTML 5, Redux, NodeJS, Postgresql, Tailwind, Data Structures, Spring Boot, Hibernate, Java 8, JavaScript, Git, Github, MySQL, JIRA, Postman, Elastic Search
